IMPACT AT A GLANCE

$1M+	30+ FTEs	10 Members	5+
Revenue Enabled	Savings Delivered	Team Managed	Global Clients

ABOUT ME

Consultant and automation architect with 5+ years delivering digital transformation across Fortune 100 clients. I find automation opportunities, justify them with business cases, design the solution, and lead the teams that build it - a combination most professionals develop separately over a decade. Holding an MBA from GISMA Business School, Berlin, I operate across the full stack: workshop floors with ops teams through to boardrooms with CXOs. At Infosys BPM, I drive end-to-end automation strategy while managing a 10-member RPA and development team. Track record: $1M+ in business value enabled, 30+ FTEs saved, five go-lives across global clients including Vanguard (US). Open to relocating globally - India, Europe, Singapore, or Remote.

PROFESSIONAL EXPERIENCE

Consultant – Intelligent Automation & AI | Production Support Manager

Nov 2025 – Present

Infosys BPM Ltd. • Bengaluru

→ Conduct structured interviews and workshops with operations teams to perform end-to-end process discovery and identify automation candidates.

→ Build detailed cost-benefit analyses and business cases to quantify FTE savings and ROI for proposed automation initiatives.

→ Produce BRDs, Solution Design Documents (SDDs), process flow maps, and technology recommendation frameworks covering RPA, Agentic Automation, AI/ML, and GenAI.

→ Present automation findings, business cases, and solution proposals directly to senior leadership and CXOs for strategic sign-off.

→ Liaise with vendors and third-party tool providers to evaluate technologies and ensure alignment with enterprise architecture standards.

→ Manage RPA Production Support team and delivery development team, with a combined team size of 10 members - ensuring SLA adherence, incident resolution, and on-time delivery.

→ Run Jira-based Scrum ceremonies, from sprint planning, backlog grooming, daily standups, and retrospectives. Ensuring on-time, quality delivery.

→ Serve as the single point of contact bridging business operations and technical delivery teams across the full project lifecycle.

Senior Associate Consultant – Automation Lead & RPA Architect

Oct 2022 – Sep 2024

Infosys BPM Ltd. • Bengaluru

→ Saved $600,000 USD (8 FTEs) via Adjustments and Retirement Plan automation; $200,000+ USD (6 FTEs) via Annual Plan Reporting Service automation.

→ Led Hyper-automation delivery using UiPath, Python, and Power BI to 30% operational improvement across two continents in an Agile setup.

→ Managed project timelines and end-to-end delivery schedules, ensuring milestones were met across complex, multi-team automation programmes.

→ Handled client-facing calls and demos for US-based stakeholders, presenting solution progress, gathering feedback, and aligning delivery with business expectations.

→ Built and maintained executive KPI dashboards; conducted UAT, POC, A/B testing, and compliance alignment reviews.

→ Identified new automation opportunities independently, contributing to roadmap planning and MVP scoping in Agile environments.

→ Mentored global team of 10 across time zones; drove sprint ceremonies, backlog management, and root cause analysis of production issues.

Associate Consultant – Senior RPA Developer *Aug 2021 – Oct 2022*

Infosys BPM Ltd. • Bengaluru

→ Applied SDLC principles to automation initiatives, owning core solutions from requirements gathering and stakeholder alignment through to post-implementation support.

→ Supported planning, testing, and feedback cycles with stakeholders across operations and IT.

RPA Developer *Jul 2019 – Aug 2021*

Jiffy.ai • Bengaluru

→ Designed and implemented the first automation use case for AirAsia, enabling a $1M USD project and laying the foundation for their long-term digital transformation roadmap.

→ Led delivery of automation solutions across multiple business verticals for Fortune 100 clients including KPMG, Lulu Exchange, and NLGIC - contributing to five successful go-lives.

→ Led automation delivery for Volvo (manufacturing), ensuring PLM system integration aligned with BOM and lifecycle governance principles.
