IMPACT AT A GLANCE

\$1M+ Revenue Enabled	30+ FTEs Savings Delivered	10 Members Team Managed	5+ Global Clients
---------------------------------	--------------------------------------	-----------------------------------	-----------------------------

ABOUT ME

Senior consultant and automation architect with 5+ years delivering digital transformation across Fortune 100 clients globally. I find automation opportunities, justify them with business cases, design the solution, and lead the teams that build it. MBA from GISMA Business School, Berlin. At Infosys BPM, leading end-to-end automation strategy and a 10-member team. Track record: \$1M+ business value enabled, 30+ FTEs saved, five go-lives across global clients. Open to relocating globally — India, Europe, Singapore, or Remote.

PROFESSIONAL EXPERIENCE

Consultant – Intelligent Automation & AI | Production Support Manager

Nov 2025 – Present

Infosys BPM Ltd. | Bengaluru

- Conduct structured interviews and workshops with operations teams to perform end-to-end process discovery and identify automation candidates.
- Build detailed cost-benefit analyses and business cases to quantify FTE savings and ROI for proposed automation initiatives.
- Produce BRDs, Solution Design Documents (SDDs), process flow maps, and technology recommendation frameworks covering RPA, Agentic Automation, AI/ML, and GenAI.
- Present automation findings, business cases, and solution proposals directly to senior leadership and CXOs for strategic sign-off.
- Liaise with vendors, evaluate technologies, and run Jira-based Scrum ceremonies (sprint planning, backlog grooming, standups, retrospectives) ensuring on-time, quality delivery.
- Manage RPA Production Support team and delivery development team, with a combined team size of 10 members - ensuring SLA adherence, incident resolution, and on-time delivery.
- Run Jira-based Scrum ceremonies, from sprint planning, backlog grooming, daily standups, and retrospectives. Ensuring on-time, quality delivery.

Senior Associate Consultant – Automation Lead & RPA Architect

Oct 2022 – Sep 2024

Infosys BPM Ltd. | Bengaluru

- Saved \$600,000 USD (8 FTEs) via Adjustments and Retirement Plan automation; \$200,000+ USD (6 FTEs) via Annual Plan Reporting Service automation.
- Led Hyper-automation delivery using UiPath, Python, and Power BI to 30% operational improvement across two continents in an Agile setup.
- Managed project timelines and end-to-end delivery schedules, ensuring milestones were met across complex, multi-team automation programmes.
- Handled client-facing calls and demos for US-based stakeholders, presenting solution progress, gathering feedback, and aligning delivery with business expectations.
- Built executive KPI dashboards; conducted UAT, POC, A/B testing, compliance reviews; identified new automation opportunities contributing to roadmap and MVP scoping.
- Identified new automation opportunities independently, contributing to roadmap planning and MVP scoping in Agile environments.

- Mentored global team of 10 across time zones; drove sprint ceremonies, backlog management, and root cause analysis of production issues.

Associate Consultant – Senior RPA Developer

Aug 2021 – Oct 2022

Infosys BPM Ltd. | Bengaluru

- Applied SDLC principles to automation initiatives, owning core solutions from requirements gathering and stakeholder alignment through to post-implementation support.
- Supported planning, testing, and feedback cycles with stakeholders across operations and IT.

RPA Developer

Jul 2019 – Aug 2021

Jiffy.ai | Bengaluru

- Designed and implemented the first automation use case for AirAsia, enabling a \$1M USD project and laying the foundation for their long-term digital transformation roadmap.
- Led delivery of automation solutions across multiple business verticals for Fortune 100 clients including KPMG, Lulu Exchange, and NLGIC - contributing to five successful go-lives.
- Led automation delivery for Volvo (manufacturing), ensuring PLM system integration aligned with BOM and lifecycle governance principles.

SKILLS & TOOLS

Consulting: Process Discovery, BRD/SDD, Process Mapping, ROI Analysis, Stakeholder Management, Solution Design

Automation: UiPath, Assistedge, Jiffy.ai, Excel VBA, OCR, Hyper-automation Frameworks, Agentic Automation, REST API Integration

Data: SQL, Power BI, Tableau, Python, PySpark, Scala

AI & Cloud: AWS Bedrock, LLMs, GenAI, Agentic AI Workflows, Prompt Engineering, RAG (Retrieval-Augmented Generation)

Project Management: Jira, Agile/Scrum, Trello, Notion, SDLC, Microsoft Office Suite

PROJECTS & PORTFOLIO

Invoice Processing Automation with Human-in-the-Loop Review - AWS Bedrock | Lambda | DynamoDB | API Gateway | React | Python - End-to-end GenAI document processing on AWS: PDF -> Claude Bedrock (JSON + confidence scoring) -> DynamoDB -> Lambda API -> React HITL review interface. Auto-approves high-confidence extractions, routes exceptions to human reviewer with full audit trail.

Vanguard Retirement Plan Automation – Assistedge | Python | Power BI | Agile - \$600K USD saved | 8 FTEs | 30% operational improvement across two continents.

Vanguard Annual Plan Reporting Automation – Assistedge | SQL | Power BI - \$200K+ USD saved | 6 FTEs | US-based stakeholder management and executive dashboards.

AirAsia First Automation Use Case – Jiffy.ai | Designed AirAsia's first-ever automation, enabling a \$1M USD engagement. Led 5 go-lives across KPMG, Lulu Exchange, NLGIC, Volvo.
